

A white polymer gel designed to reduce friction during cable pulling operations, making the process safer, faster, and cleaner. It applies easily to cables without dripping or running. Ensures smoother cable pulling before termination or splicing.

- Reduces friction and eases cable pulling
- Easy-to-use gel form; does not drip or run
- Transparent and non-staining
- Water-soluble, easy to clean within a short time
- Reduces blockages inside conduits
- Maintains viscosity, thickness, and readiness for application
